

## SILVER HAS BLOOMED

 "BOUQUET SERIES"  
OF SILVER

EXCLUSIVELY FROM   
UNITED PRECIOUS METAL REFINING INC.

*Light Colored shades of Silver alloys were developed by United PMR for those customers interested in marketing a Unique type of Silver Jewelry as opposed to the conventional White Colored Sterling Silver Jewelry. As the cost of Fine Silver has tripled in the past few years, it has become more difficult to find a market for the regular conventional Sterling Silver jewelry. These colored alloys have been formulated in different shades of light colors or tints with fine silver contents ranging from 20 % to 60 %.*

*Please contact United PMR for more information on these products.*
