

SILVADIUM™

An innovative combination of Sterling Silver with Palladium developed as an affordable alternative to White Gold, Platinum, Palladium jewelry and as a Premium Tarnish Resistant Sterling Silver. SILVADIUM™ has been designed based on the requirements of the gold, the platinum and the silver jewelry industry and their need for a premium product, in times of high precious metal prices.

The product offers features such as:

- Premium White Color, Sterling Silver
- Unparalleled Tarnish resistance
- Improved hardness and stone capability
- Fire scale Free
- Super Stone in Place grain
- Suitable for casting as well as for fabrication applications
- Nickel & Lead Free
- Affordable alternative to White Gold, Platinum and Palladium
